## CTI's Clinical Data Management Expertise and Multi-system Capabilities Offers Strategic Approach

CTI's Clinical Data Management (CDM) team provides guidance to sponsors on the most appropriate method of data collection to best serve the needs of the study, research sites, and project team. **We offer multiple validated, industry leading technology platforms, allowing for strategic application of a customized solution for data activities, which is a critical component of successful clinical studies.**

Our preferred clinical data management Electronic Data Capture (EDC) systems include [Medidata Rave](#) and [OmniComm TrialMaster](#). Both systems are industry leading, cloud-based, software as a service electronic data capture systems.

Both Rave and TrialMaster are flexible, scalable, and configurable for all clinical trial phases. Each system allows the CTI CDM team to:

- Capture high quality data with a minimum amount of queries in a timely manner
- Set up EDC trials faster without compromising quality; allow re-use of previous eCRFs for the same sponsor
- Meet increased compliance and regulatory demands while reducing risk and costs
- Reduce complexity, improve quality and reduce time to submission

Other benefits include seamless integration with CTI's full suite of clinical systems including [Medidata CTMS](#) and Oracle Argus Safety. **This technical integration parallels our study team integration, as our infrastructure was built to encourage close collaboration between data management, statistics, monitoring, and study management.**

In addition to providing insight on the most appropriate method of data collection to best serve the needs of the individual study,

### CTI Cares Spotlight

Childhood  
Domestic Violence  
Association

The Childhood Domestic Violence Association is the only nonprofit organization dedicated exclusively to helping people who experienced Childhood Domestic Violence or those who care about, work with, or mentor someone who did.

Their mission is to increase awareness of Childhood Domestic Violence as an issue affecting hundreds of millions, to empower caring adults, communities and organizations to serve as a lifeline for those children affected, and to educate adults who experienced Childhood Domestic Violence as to the long-term impact so they can strive to overcome.

Nominated by: Jeni White - Clinical Operations Coordinator

sites, and project team; our CDM team evaluates the needs of the larger program for sponsors collaborating with us on multiple studies. In these cases, our team considers the ability of each of our systems in terms of offering efficiencies in database design and build across studies, passing time and cost savings on to our sponsors.

The expertise of CTI's CDM team specific to complex clinical research programs combined with our multi-system capabilities, allows us to offer a strategic approach to data activities. **The result is efficient data collection, fewer data queries, more favorable database lock timelines, and accurate reporting to move your program into next phase of development.**

### **New Additions & Promotions at CTI**

Hyemi Cheon joins as Operations Manager, CTI Korea

Brittany Donovan promoted to Regulatory Specialist II

Brendan Doran promoted to Manager, Research Pharmacy / Study Manager III

Lorri Erhardt joins as Vice President, Clinical Monitoring

Alfredo Garcia promoted to Senior Clinical Project Manager

Maria Izzo promoted to Study Manager III

Lisa Kaffenberger joins as Senior Travel Coordinator

Mackenzie Pater promoted to Study Manager II

Ashley Perry promoted to Project Manager

Elizabeth Stanley joins as Research Associate

Yuhui Qiu promoted to Biostatistician II

### **Upcoming Meetings We Will Be Attending**

**SSIEM 2016 Symposium (Society for the Study of Inborn Errors of Metabolism)**  
 Rome, Italy  
 September 6 - 9

**CAR-TCR Summit 2016**  
 Boston, MA  
 September 13 - 16

**2016 Cell and Gene Meeting on the Mesa**  
 La Jolla, CA  
 October 5 - 7

**NORD's Annual Summit**  
 Arlington, VA  
 October 17 - 18

**Alliance for Regenerative Medicine - Advanced Therapies Investor Day**  
 London, England  
 November 3

**BIO Europe**  
 Cologne, Germany  
 November 7 - 9

**The Liver Meeting 2016 (AASLD Annual Meeting)**  
 Boston, MA  
 November 11 - 15

**Kidney Week 2016 (ASN Annual Meeting)**  
 Chicago, IL  
 November 15 - 20

**Partnerships in Clinical Trials**  
 Vienna, Austria  
 November 16 - 17

**World Orphan Drug Congress Europe**  
 Brussels, Belgium  
 November 16 - 17

### **Join our Team!! We're looking for individuals to fill these positions:**

Clinical Programmer I (Cincinnati, OH)

Clinical Research Associate (US, Germany, France, Spain, Australia, Brazil, Korea, Taiwan, Japan, Argentina)

Clinical Research Coordinator/Research Nurse (Cincinnati, OH)

Manager/Director, Regulatory and Scientific Affairs (Cincinnati, OH)

Manager, Business Development & Client Management (Europe & US)

Manager/Director/Executive Health Economist (Cincinnati, OH; Raleigh, NC; Philadelphia, PA)

Manager/Director/Executive Health Outcomes Research (Cincinnati, OH; Raleigh, NC; Philadelphia, PA)

Study Manager (Cincinnati, OH; Raleigh, NC; Philadelphia, PA; San Francisco, CA; Ulm, Germany; Paris, France; Madrid, Spain)
